**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer who supports broadband competition. I have gone with the big name companies like AT&T and Comcast and have been disappointed with the broadband performance, the high cost, unfair price increases, and the poor customer service. These big companies get away with these practices because they essentially have no competition. I work full-time and I am earning my master's degree online so I depend on fast, reliable internet everyday. Sonic fiber internet has been the answer to all my problems. The competition that companies like Sonic brings includes better performance, better prices, more flexibility with installation, and excellent customer service.
